[Correction.—In yesterday's report Mr. Conigland is made to say "he scorned the wild mob." The better sense is, as reported by himself, "I scorn and repudiate the doctrine that the sole power of government should be vested in a mere numerical majority, which does not embrrce a majority of interests also." No injustice was intended, and the correction is cheerfully made.)

FRIDAY, June 15, 1866. Mr. Faircloth, from committee on petition of Mrs. Jane F. Havens, praying for a di-vorce, reported an ordinance to that effect. A motion was made to lay on table, which was lost.

Mr. Conigland offered the following reso-

WHEREAS. The Congress of the United States has under consideration a bill, whereby, among other things, it is proposed to levy a tax of five cents per pound on raw cotton in the hands of the producer, prohi-biting the removal thereof for sale until the payment of the tax so proposed to be levied; and, whereas, the said proposed tax is, in effect, an export duty, and, as such, is contrary | slightly. to that clause of the Constitution of the United States which declares, that "no tax, C., slightly.

jected. The debate was principally upon points of law. Mr. Dockery in discussing it warned the people against the general tendency to run to move forward. into repudiation, and said that before long men would be found upon the stump advo-

Mr. Ferebee in reply asked Mr. D. if he had voted at the last session of this Convention for the ordinance prohibiting the payment of the war debt. Mr. D. replied that he had, when Mr. Ferebee went on to say that there was the point where repudiation commenced; that he had not voted for the ordinance and that he had never tarnished

the honor of the State by so doing, &c. Mr. Settle replied that he was the author and introducer of the ordinance which prohibited the payment of the war debt, and that it had secured the support of a large majority of this Convention. He was tired of hearing insinuations cast upon the honor and integrity of himself and those who acted with him, and it was now high time that some things should be said and understood. Those who insinuated that he was in favor of repudiating any honest or just debt, public or private, simply said or insinuated that which was false. No man in the State would scorn the repudiation of a just debt more

with treason, was not to be classed and confounded with just and honest debts. He took the position that if the State had this capitol building full of money and nothing else to do with it, not one dollar ought to be applied to the payment of any debt incurred in trying to destroy the United the pocket of its owner. That is but a small particularly and gratefully spoken of. it but invites another rebellion to-morrow, and offers a premium and reward for treason. He said he would ask a question by which every man who had taken an oath to far as this debt is concerned, and see whether he was honest, and in earnest, when he took the oath, or whether he was deceiving himself, or attempting to deceive others .-Are you not prepared all now, said he, to say that every dollar hereafter advanced in any attempt to destroy this government, shall be tainted with treason, and should never return to the pocket of the person who advanced it? If you hesitate a moment, you are not fit to be re-admitted to the privilege and protection of the Union. You say you loved the Union up to May 1861. I know in February, 1861, that the people of North-Carolina did love the Union, and opposed secession by a large majority. Do you think then, that a dollar advanced in aid of any conspiracy to destroy the Union up to that time, ought to be paid? I imagine not.

The difference between me and some other traitors is this: no man, woman or child has ever heard me boast of it. I have always looked upon the whole matter with regret, and instead of gric-vingafter the dead Confederacy, it costs me no effort to firmly fix my affectious upon the object of my first love. I did all I could to prevent the rebellion and urged peace after it had commen-

I witnessed with admiration the gallantry of our poor soldiers who were being led to destruc-tion, and plead for peace in their behalf; and I repeat now what I have said before, that those nen who pressed this war, after the contest be came hopeless, are simply murderers. They were butchering our men without a single hope of suc-cess. Those who inaugurated the war were traitors, and those who pressed it after it was hopeless were marderers. The crime is on them, the regret is with me.

The committee on swamp lands reported TERRIBLE RAILROAD ACCIDENT ONE-LADY KILLED AND A NUMBER OF PERSONS OF BOTH SEXES INJURED .- We are called upon to record to-day one of the most melancholy accidents which ever befell any of the railroads leading into this city. THE DETAILS. The circumstances of this sad affair as deelection of Governor, Legislature, &c., to 1st | tailed to us by an eye witness are as follows: hursday in October.

Mr. Howard, an ordinance to incorporate yards this side of Coalfield Station, by the jarring of the train an old iron pin which A resolution in favor of the principal Sec- held the switch to its place was snapped in two. The breakage occurred just as the engine and all the cars except the last or

"ladies' car" had passed over the point. As Being the unfinished business of yesterday, the pin broke the switch rod fell obliquely downward, causing the iron rail of the track to be moved from its proper place. This threw the wheels of the rear car on top of the rail. No chance being afforded to give notice to the engineer, nor for him to stop if notified, the train continued rapidly

> The rear car thus off the track, proceeded some distance on top of the rails, then jumping and bouncing from sill & sill, it soon tore loose from the car next in front, breaking off a part of the platform of that car .-The rear car thus detached, was quickly precipated down an embankment some fifty feet high, making in its fall, some say two. other three revolutions. About midway of this embankment the iron truck and wheels under the car separated from it, and falling between the car and the bottom of the embankment, caught on the side of car and arrested its descent. In that condition the car resting on its side, about half-way down the embankment, the passengers were resued

> from the wreck. The car wrecked was one of the new and elegant ones lately purchased by the Danville road, and cost nearly \$6,000. It had a beautiful ventilating apparatus on top tastefully arranged with stained glass windows, whilst the interior was comfortable, convenient and elegant. The whole car is a comple wreck.

The unfortunate sufferers by the sad cathan himself, but this war debt, tainted lamity were cared for as the circumstances permitted. Capt. Wm. E. Taylor is represented as being assidious in his efforts to do all in his power, and a number of gentleman on the train in the uninjured cars were not less attentive. The people in the neighborhood also extended their aid, and Dr. Ball, formerly Colonel of the 15th Virginia caval-States government. That government owes it to itself to see that money advanced in John A. Coke, of this city, with others, are

Of the sufferers themselves we are enabled punishment to treason. To think of paying to state that the remains of the unfortunate lady, the only one whose injuries have as yet proved fatal, were conveyed to the residence of James B. Pace, Esq., of this city, her kinsman, and will be taken back to Danville for support the U. S. government since the close interment. There also Mrs. Greenville T. of the rebellion, could easily test himself, so Pace, was taken, and will be properly cared

The venerable Bishop Early was so seriously injured that he was taken to Dr. Ball's residence near Coalfield, together with Mr. Isaac Overby, where every attention will be shown them. The other sufferers have also been taken to places of convenience and

comparative comfort. It may be proper to mention that the fatality of Mrs. Trotter's injuries is attributed to the fact that she endeavored to extricate herself from the car as soon as the alarm was given, by jumping from a window. In this position she was caught by the overturning car and crushed beneath its side. Others who remained in the car suffered less .- Rich-

REASONS WHY AMERICAN WATCH Made at Waltham, Mass.

IS THE BEST. IT IS MADE ON THE BEST PRINCIPLE. Its frame is composed of SOLID PLATES. No jar can interfere with the harmory of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made. The watch is what all mechanism should be-ACCU-RATE, SIMPLE, STRONG AND ECONOMI-CAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise, more than ten years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of these foreign impositionsthe refuse of toreign factories-which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watche of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequalled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pre tend to sell our watches for less money than foreign watches, but we do assert without fear of contra diction that for the same money our product is incomparably superior. All our watches, of what ever grade, are fully warranted and his warrantee is good at all times against us or our agents in a'l parts of the world.

CAUTION .- The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

MANUFACTURED BY

W. G. CLEMONS, BROWN & CO.. Columbus, Ga. WE HAVE REVIVED THE MANUFAC-will be prepared to fill orders by 1st June next. As we shall not be, as heretofore, represented by traveling agents, parties wishing our Gins will confer a favor by sending in their orders at an early day. As owing to the demand, we shall be unable to keep a stock in the hands of our local agents, as it was our practice before the war. All business transactions being now reduced to cash, our sales will be made on the basis of ready pay.

Our Gins are too well known to require any special notice or commendation; we believe they are unrivalled in the chief points of excellence which go to make up a superior machine, namely: E HAVE REVIVED THE MANUFACwhich go to make up a superior machine, namely: Speed, light draught and good sample. Our DOUBLE CYLINDER GINS will be found

We will give prompt attention to orders for the above celebrated Gins from any part of the State. The price is five dollars (\$5) per Saw at the Factory, and five dollars for each Gin will only be charged to purchasers for transportation to this point.

TIN WARE! No. 44 Fayetteville Street.

We have a large stock of TIN WARE, of our own manufacture, for sale, wholesale and retail.

With HART & LEWIS.

Raleigh, May 15, 1866.

Our DOUBLE CYLINDER GINS will be found superior to the single cylinder, when parties have steam or good water power, to give them the necessary speed. In all cases when this can be done, we recommend them in preference to the single cylinder. If, however, indifferent or insufficient power is used, they will not do as well as the single Gin.

Messrs. DEROSSET & CO., Wilmington, N. C., are our general agents for the State of North-Carolina.
